What are your professional goals for the next five years? Do you have a five-year plan or are you in the process of crafting your vision?

What are three heartfelt goals that are central to your work and who you are as an artist/teacher, or non-profit organization?

What do you see as the most obvious barrier to your success?

What would you consider your best successes? In what do you excel? What has been your “finest hour”?

What is your most urgent and pressing professional need at this time?

What do you find missing in your current strategy to achieve your goals? (for instance, additional education, networking, funding, professional contacts, visibility, and so on)

How do you see Artsmentor helping you?
